

BICYCLE MAP GUIDE

BRASS has completed a 16-page interpretive map guide of six bicycle trails in the watershed. Called "Adirondack Coast Bicycling," it will be distributed by the Lake Champlain Visitors Center to tourists and to local persons wishing a copy. The Cooperative Business Network is busy working on a "Sites & Services" insert to the guide, so that bicyclists will know where they can stay, eat, shop, and explore. All trails connect the five watershed towns to the principal bike route around Lake Champlain, and BRASS hopes many tourists might come, stay for a while, and spend money at our local businesses.
